Dear Sirs: Please leave X-M Radio alone: X-M Radio is a tool that a lot of motorist use. To have the LOCAL weather on X-M Radio is great. I would not want to die in a tornado because I could not hear the warning any more than you would want to die. I do not have a am-fm radio in my car so you see how important it is for me to have the weather on X-M Radio. Traffic!!!! How about that accident ahead of me on the freeway would you want more fatalities only because I could not hear the road report. Thank you for letting me express my views. aj
